4. Applications from officers already in the public service, whether as probationers or on a permanent establishment, will not be entertained.

5. Applications from residents in Ajmer, Baluchistan, Coorg, Delhi and North-West Frontier Province should be addressed to the Secretary to the Government of India, Department of Education, Health and Lands, through the Chief Commissioners of those Administrations, and from residents in Indian States through the Political Officer or Agent *in time to reach the Government of India not later than the 1st May 1925.* Applications from residents in other territories should be addressed to the Revenue Secretary of the local Government concerned *in time to reach him not later than the 1st May 1925.* The applications must be in the form attached to these regulations. Copies of the regulations and of the forms of application may be obtained from the Secretary to the Government of India, Department of Education, Health and Lands, the Revenue Secretaries to the Governments of Madras, Assam, Bengal, Bihar and Orissa, Central Provinces, the Punjab and the United Provinces; the Chief Commissioners of Ajmer, Coorg and Delhi; the Chief Commissioner and Agent to the Governor-General in the North-West Frontier Province; the Agent to the Governor-General and Chief Commissioner in Baluchistan and Political Officers of Indian States.

6. Applications must be accompanied by a preliminary medical certificate of fitness for service in the Forest Department, signed by a Presidency Surgeon or the Civil Surgeon of the district or agency in which the applicant resides. This certificate is intended to prevent applications from candidates who are obviously physically unsuited for the Forest Service and will not exempt candidates from appearance before the final Medical Board

7. Candidates who from their applications and from any further enquiries that may be considered necessary appear to the Government of India or to the local Government concerned to be *prima facie* suitable will be summoned to appear before a Medical Board to undergo a strict medical examination in which particular stress will be laid on good vision and hearing. Each candidate appearing before the Board will pay a fee of Rs. 16 for his medical examination which will not be refunded whether the candidate is passed as fit or rejected as unfit. If passed as fit for the work of the Forest Department, they will then be interviewed by a Selection Board appointed by the Government of India or by the local Government concerned as the case may be.

---

* Candidates must have obtained a degree with *Honours* in some branch of Natural Science† in a University of England, Wales, or Ireland, or have passed the Final Bachelor of Science Examination in Pure Science in one of the Universities of Scotland.‡ A degree in Applied Science will not be considered as fulfilling these conditions. Candidates are required to produce evidence that they have a fair knowledge of either German or French. Weight will be attached to the possession of a diploma or degree in Forestry

* * * * * * *

† A Moderatorship in Natural Science or in Experimental Science at the University of Dublin will be considered as fulfilling these conditions

‡ Graduates in Forestry at the University of Edinburgh are regarded as satisfying the requirements of this paragraph if they pass the Final Examination of that University in some one branch of Natural Science embraced in the degree in Pure Science.

8. Candidates summoned by the Government of India to appear for the medical examination and interview referred to in paragraph 7 will not be paid any travelling allowance.

Candidates summoned by local Governments for similar purposes may be paid travelling allowance under such conditions and at such rates as the local Government concerned may specify.

No allowance for board and lodging will be made in connection with the journeys mentioned above and candidates must make their own arrangements in this respect.

9. Untrained candidates selected as a result of the interview prescribed in paragraph 7 will be appointed as probationers for the Indian Forest Service; they will be required to leave for England early in September and, subject to their undergoing satisfactorily, as described below, a course in Forestry and allied subjects in England, will be appointed finally as Assistant Conservators of Forests. A free second class passage to England will be provided, but neither the cost of travelling to the port of embarkation, nor the cost of the overland journey from Marseilles will be paid to candidates selected for training unless they are expressly instructed to travel overland and provided with steamer tickets to Marseilles only. In the latter event the High Commissioner for India will refund the rail and baggage expenses if directed to do so.

Fully trained candidates, if selected and appointed to the Indian Forest Service, will not be required to undergo any further training in England. They will, however, be placed on probation for the first year of their service. Such candidates shall not be entitled to any payment in lieu of the allowances which are payable to probationers while under training.

10. *Period of probation.*—Before appointment to the Indian Forest Service a probationer will be required—

(1) to have undergone and qualified in, to an extent to be prescribed by His Majesty's Secretary of State for India, the course of Forestry at such University as the Secretary of State may prescribe;

(2) to have undergone a special course of instruction in Forestry under the direction and supervision of the Director of Indian Forest Studies;

(3) to have passed an examination in forest engineering and, if required, in certain other special subjects, namely, Systematic Botany of Indian trees, Indian Geology, Forest Law and Indian Working Plans;

(4) to have undergone a final competitive examination in Forestry;

(5) to have satisfied the Secretary of State, in such manner as may be determined, of his ability to ride.

The period of probation is, in ordinary cases, two years. The Director of Indian Forest Studies instructs probationers in each case as to the order and manner in which they should fulfil these various requirements.

11. *Charges.*—Probationers will be required to defray all expenses of lodging, board, tuition and excursion to forest centres in the United Kingdom while at the University and on practical instruction.

12. *Allowances.*—The Secretary of State for India in Council makes payment to each probationer at the rate of £350* per annum, not exceeding a total of £700.

These payments are ordinarily made on the following dates:—

*First year*—

| | £ |
|---|---|
| On the first October ... ... ... ... | 75 |
| On the 15th December ... ... ... ... | 100 |
| On the 15th March ... .. ... ... | 75 |
| On the 15th July ... ... ... ... | 100 |
| | 350 |

*Second year*—

| | £ |
|---|---|
| On the 15th December ... ... ... ... | 100 |
| On the 15th March ... ... ... ... | 75 |
| On the 15th July ... ... ... ... | 100 |
| On the 15th October (after execution of agreement) ... | 75 |
| | 350 |

* The Secretary of State for India gives notice that the amount of these allowances will be reconsidered in 1925 with a view to possible reduction with effect from the instalment payable in October 1926.

The cases of probationers whose probation does not extend over the full period of two years will be specially considered.

For tours made on the Continent, under the instructions of the Director of Forest Studies, subsistence and travelling allowance will be paid by the Secretary of State for India in Council at such rates as he may from time to time fix. The fees of the local forest officials, at the centres visited, will also be paid by the Secretary of State.

The grant of allowances is subject to the following conditions :—

(*a*) that the progress of the probationer in his studies is satisfactory ;

(*b*) that the probationer gives security* to refund the payments in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 15 or failing to join the Indian Forest Service at the end of the period of probation ;

(*c*) that the probationer undertakes to refund in proportions fixed under the terms of his agreement, the payments, together with the cost of his first-class passage to India, in the event of his leaving the service during the first five years from the date of his appointment.

13. *Conduct.*—Every probationer is required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State and to give evidence of satisfactory progress in his studies in such a manner as may be required, failing which, or in the event of serious misconduct, he is liable to have his name removed from the list of probationers.

14. *Appointment and seniority.*—Probationers who comply with the requirements of paragraph 10 within the sanctioned period of time, and also satisfy such other tests as may be prescribed, are appointed Assistant Conservators in the Indian Forest Department, provided they are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service. No probationer will be confirmed as a member of the Indian Forest Service who fails to profit by the course of training or who appears, in the light of the experience acquired as to his capacity and qualifications during the probationary period, to be unsuited for the work of a forest officer.

The position of the Assistant Conservators in the Provincial Forest Lists is determined by the Secretary of State for India in Council on the report of the Director of Indian Forest Studies. Officers promoted from the Provincial to the Indian Service will take rank according to their pay in the latter service. Probationers recruited under these regulations must consequently be prepared to find their names placed below those of officers promoted from the Provincial Service.

Probationers are allowed at the end of the period of probation to state their preference in respect to the province to which they desire to be allotted ; but the distribution is made to the several provinces according to the needs of the public service, at the discretion of the Secretary of State for India in Council and no guarantee can be given that probationers will, on appointment, be posted to their own provinces. Indians will not, however, be required to serve in Burma and Burmese will not be required to serve in India.

Officers are at all times liable to be transferred from one province to another at the pleasure of the Government of India.

15. *Articles of agreement.*—A probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment ; he must embark for India when required to do so by the Secretary of State. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

16. *Passage to India.*—Each probationer on appointment to the Indian Forest Service is provided with a free first-class passage to India.

17. *Salary.*—The scale of pay and allowances in force for officers of Indian domicile is given in Appendix II to these regulations.

18. *Promotion and pension.*—Promotion and pension are governed by the regulations laid down by the Secretary of State for India in Council, and applicable to forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by him and their interpretation in case of any doubt arising being left to that authority.

Certain information regarding appointments in the upper controlling staff of the Indian Forest Service will be found in Appendix II, and a summary of information regarding pensions is contained in Appendix III.

* Probationers will be required to give security to the Local Government or Political Officer, through whom they submitted their applications. If this condition is not satisfied, they will not be permitted to leave for England.

## DEPARTMENT OF AGRICULTURE, BENGAL.

### Forecast of the *Rabi* crops of Bengal for 1924-25.

(NOTE.—On an average of the five years ending 1922-23, the area under summer rice in Bengal has represented some 0·5 per cent. of the total area under rice in British India.)

**Character of the season.**—The rainfall in September was in excess of the normal while in October it was below the average. Preparatory tillage and sowing of crops, though commenced in the normal time, ended later than usual. In November the rainfall being very heavy interfered with the germination and growth while dry weather during the month of December proved generally beneficial. Showers since the beginning of January have adversely affected the mature crops to some extent, especially where hail has fallen. On the other hand, transplantation and growth of summer rice and other late-sown crops have been facilitated. On the whole, the season may be regarded as a fair one for the crops.

**Acreage.**—The normal area under the different *rabi* crops in the province dealt with in this forecast is estimated at 2,972,600 acres. The area actually sown this year is reported to be 2,583,200 acres as against 2,617,500 acres last year. Of this, the area under summer (*boro*) rice is returned at 421,700 acres as against 407,900 acres of last year.

**Outturn.**—According to the estimates of District Officers the outturn of the different *rabi* crops for the Province as a whole works out to 77 per cent. of the normal as against 74 per cent. of last year, the returns from the more important *rabi* districts being as follows :—

Nadia 77, Murshidabad 59, Jessore 53, Khulna 76, Burdwan 73, Midnapore 83, Rajshahi 62, Jalpaiguri 85, Rangpur 100, Pabna 83, Malda 68, Dacca 81, Mymensingh 70, Faridpur 84, Bakarganj 58, Tippera 69 and Noakhali 97.

**Summer rice crop.**—The outturn of summer rice according to district estimates is 76 per cent. of the normal against 75 per cent. last year. The gross yield of the crop for the Province, on the basis of a normal yield of 14 maunds of clean grain per acre, is thus estimated at 164,800 tons this year against 157,300 tons last year.

| PABNA. | Barley ... ... ... | 5,600 | 2,900 | 2,900 | 50 | 83 | Beginning of November. | Not yet commenced. | The increase in area under most of the crops is due to failure of the paddy crop owing to flood. There was good rainfall from October to February which was favourable for cultivation. About two annas of the crops have been damaged for want of seasonable rainfall. The outturn is below the normal owing to want of seasonable rainfall at one time and heavy rainfall at another time. |

### RESOLUTIONS.

TARIFFS.

*The 28th March 1925.*

*No. 221-T.*—In paragraph 16 of the second portion of the original Report regarding the grant of protection to the Steel Industry, the Tariff Board considered as a general conclusion that an increase in duties on unfabricated steel did not necessitate any increase in the duties on imported boats, barges, flats, steamers, etc. The Board did not arrive at any distinct finding as to the duties which ought to be imposed when such vessels were imported as shaped and fabricated parts for erection in India, as that question was not brought to the notice of the Tariff Board. This question is now referred to the Tariff Board for enquiry and report with special reference to a representation received from the Irrawaddy Flotilla Company that the general conclusion of the Tariff Board should be held to cover the imports of shaped and fabricated parts for such vessels.

2. Firms or persons interested in the above enquiry should address their representations direct to the Secretary of the Tariff Board.

ORDER.—Ordered that a copy of the above resolution be communicated to all Local Governments and Administrations, all Departments of the Government of India, the Director General of Commercial Intelligence, the Indian Trade Commissioner in London and the Secretary of the Tariff Board.

Ordered also that it be published in the *Gazette of India*.

*No. 38-T.* (*2*).—The Government of India have received a number of representations to the effect that the development of certain industries in India is hampered by the fact that the duty on the finished article is lower than the duty on the materials which have to be imported for the manufacture of that article. A list of such representations is appended to this resolution. The representations will now be referred to the Tariff Board. It is requested to examine these representations and any others of a similar nature which may be brought to its notice and to make such recommendations, whether general or special, as it thinks fit.

2. Firms or persons interested in the above enquiry should address their representations direct to the Secretary of the Tariff Board.

ORDER.—Ordered that a copy of the above resolution be communicated to all Local Governments and Administrations, all Departments of the Government of India, the Director General of Commercial Intelligence, the Indian Trade Commissioner in London and the Secretary of the Tariff Board.

Ordered also that it be published in the *Gazette of India*.

### NOTIFICATION.

POLITICAL.

*Delhi, the 1st April 1925.*

*No. 383.*—The following statement is published for general information :—

A statement by His Excellency the Governor-General of the reasons which have moved him, in exercise of the powers conferred upon him by section 67-B of the Government of India Act, to pass an order for the certification of the Bill to supplement the Bengal Criminal Law Amendment Act, 1925.

J. CRERAR,

*Secretary to the Government of India.*

### STATEMENT.

1. When, on the 25th October, 1924, I made and promulgated an Ordinance to supplement the ordinary Criminal Law in Bengal, I published a statement recording in a concise form the circumstances which in my judgment rendered this measure indispensable. I do not consider it necessary to recapitulate or amplify that statement further than to say that the grave recrudescence of anarchical and terrorist crime in Bengal and the organization of conspiracies to this end can no longer be matter of controversy.

2. I intimated at the same time that measures of a more permanent character would in due course be presented by the Government of Bengal in the local Legislature. In pursuance of this intimation a Bill was introduced in the Bengal Legislative Council, the object of which was to continue the provisions of the Ordinance for a period of five years. This Bill, having been enacted under the provisions of section 72-E of the Government of India Act, has received the assent of His Majesty in Council.

3. Certain of the provisions of the Ordinance were, however, beyond the competence of the local Legislature, partly as affecting the jurisdiction of the High Court of Judicature at Fort William in Bengal and partly as operating, in one particular and in certain contingencies, beyond the territorial limits of the Presidency of Bengal. The object of the present Bill is to supplement the local Act in these respects.

4. The provisions for an appeal to the High Court by any person convicted on a trial held by Commissioners under the local Act and for the submission to the High Court of any sentence of death passed by the Commissioners constitute in my opinion important safeguards for the just and equitable operation of the special procedure instituted by this Act. Circumstances may arise in which it will be desirable that persons committed to custody in jail under section 11 of the local Act should be, for such time as may be needful, removed from the environment in which their presence might be a source of danger to the public security. This is a precaution which I consider necessary. I also consider it indispensable, in order that the preventive and precautionary powers vested by the Act in the Executive Government may be made effective, that orders of arrest or of committal to or detention in custody should not be subject to directions under section 491 of the Code of Criminal Procedure, 1898. Moreover, if proceedings of this character were taken Government might be obliged to reveal information of the most dangerous character and to compromise and render powerless their measures of precaution and intelligence which constitute, in dealing with secret conspiracies, one of the most important practical safeguards of public security. This would clearly frustrate some of the most essential purposes of the Act.

5. For these reasons I have decided and certified that this Bill is essential for the tranquillity of the Presidency of Bengal.

6. Inasmuch as the Bengal Criminal Law Amendment Ordinance, 1924, expires on the 25th April, 1925, and time does not allow of the Bill being submitted for His Majesty's assent in accordance with the procedure laid down in sub-section (2) of section 67-B of the Government of India Act, I have made a direction that the Act shall come into operation forthwith.

Long. 48° 43′ E. } *approx.*

*Instruction.*—On the approach of a vessel the Dredger will have to tide-ward clear of the dredged channel where she can continue dredging until the traffic has passed, as a rule vessels will steam through the dredged cut at above high water.

A vessel on nearing the Dredger will call the latter's attention by giving one long blast on the whistle.

Vessels of deep draught must not enter the dredged cut either inward or outward after high water and vessels of light draught before attempting to navigate the dredged cut must be absolutely certain of getting through before the tide falls to their draft of water.

A deep laden vessel inward bound will wireless to all outward bound vessels that the ship intends to enter the dredged channel before high water and the Masters of outward bound ships must use their own discretion whether they pass the inward ship in the channel or wait for her to clear before entering the cut.

Any vessel which is not steering well must on no account enter the dredged channel until all vessels bound in the opposite direction have passed clear.

No vessel should enter the dredged cut unless the Master is certain of obtaining one foot more water than his vessel is drawing.

## DEPARTMENT OF AGRICULTURE, BENGAL.

### Third Forecast of the Wheat Crop of Bengal, 1924-25.

(NOTE.—On an average of the five years ending 1922-23, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1922-23, averaged (*a*) 45·2 and (*b*) 14·1 per cent., respectively.)

**Character of the season.**—Since the issue of the second forecast in February last, the conditions have generally remained the same except that the crop is reported to have deteriorated a little in the districts of Murshidabad and Bogra owing to cloudy weather and to have improved to some extent in the district of Midnapore. On the whole the crop is expected to be a fair one for the province.

**Acreage.**—According to District Officers' estimates, the total area sown is 126,200 acres this year as against 120,400 acres reported both in the corresponding and final forecasts of the last year.

**Outturn.**—The Provincial outturn, as worked out from district estimates, is 79 per cent. of the normal as against 63 and 62 per cent. reported respectively in the corresponding and final forecasts of last year.

Taking the normal yield to be 8½ maunds per acre, the gross yield of the crop for the province is estimated at 30,500 tons this year as against 23,200 tons and 22,900 tons reported respectively in the corresponding and final forecasts of last year.

*Position.*—Lat. 29° 50′ N.
Long. 48° 43′ E. } *approx.*

*Instruction.*—On the approach of a vessel the Dredger will have to tide-ward clear of the dredged channel where she can continue dredging until the traffic has passed, as a rule vessels will steam through the dredged cut at above high water.

A vessel on nearing the Dredger will call the latter's attention by giving one long blast on the whistle.

Vessels of deep draught must not enter the dredged cut either inward or outward after high water and vessels of light draught before attempting to navigate the dredged cut must be absolutely certain of getting through before the tide falls to their draft of water.

A deep laden vessel inward bound will wireless to all outward bound vessels that the ship intends to enter the dredged channel before high water and the Masters of outward bound ships must use their own discretion whether they pass the inward ship in the channel or wait for her to clear before entering the cut.

Any vessel which is not steering well must on no account enter the dredged channel until all vessels bound in the opposite direction have passed clear.

No vessel should enter the dredged cut unless the Master is certain of obtaining one foot more water than his vessel is drawing.
